

# Restoration Supply Company

We are proud to offer you products from two of the finest lubricant manufacturers in the world. We are now the North American distributor for Penrite Oil Company as well as for Lubriplate. Both of these manufacturers produce many products to fit most all applications. Custom engineering for products is common place for both of these manufacturers, be sure to put the Right Stuff into your prized vehicle.

We stock the most common items from both of these lines, but if you have a need for an item that we do not show here, be sure to request it.

The Lubriplate SPO gear oils **will not harm brass, bronze or silver alloy metals** and may be mixed together to achieve your perfect viscosity.

<b>90W Gear Oil</b>	Lighter weight gear oil for later non-hypoid gear sets in the 20's thru 40's rear axles and transmissions; good choice if heavier oil is causing hard shifting. 90W is recommended for Model T rear ends, including Ruckstells. LubriPlate SPO-255	<b>LUB014 \$12.50/qt</b>
<b>110W Gear Oil</b>	Same application as 90W but with a slightly heavier viscosity. LubriPlate SPO-266	<b>LUB015 \$12.50/qt</b>
<b>140W Gear Oil</b>	For transmissions and rear ends with straight, worm, or spiral bevel; good in cold weather or if the vehicle is hard shifting with heavier oils. LubriPlate SPO-277	<b>LUB010 \$12.50/qt</b>
<b>250W Gear Oil</b>	A heavier, tacky cohesive oil for transmissions and rear axles where heavier oil is required. It can also be used with spiral/bevel or <b>older hypoid gears</b> . LubriPlate SPO-288	<b>LUB012 \$12.50/qt</b>
<b>600W Gear Oil</b>	Many original service manuals specify 600W for rear axles and transmissions. Because it's less prone to leakage, it's well suited to large, heavy vintage vehicles. LubriPlate SPO-299	<b>LUB008 \$12.50/qt</b>
<b>Semi fluid Grease 1000W</b>	This is a very heavy, sticky oil specifically formulated for older transmissions and rear ends with severe leakage problems. It will not attack brass or bronze parts. LubriPlate MAG-00	<b>LUB002 \$15.00/qt</b>
<b>1500W Gear Oil</b>	Heavy Duty Gear Oil. If you need an even heavier gear oil, here it is. It pours like molasses and will flow.	<b>LUB026 \$10.00/qt</b>
<b>Steering Box Lube PENRITE</b>	Approximately 1200W oil which will not run out of your steering box or track like grease. This is the best lube for all non "power" steering boxes. It's also good for enclosed U joints, engine couplers, and other parts which require a very thick, sticky lubricant. (500ml bottle).	<b>LUB009 \$14.60/btl</b>
<b>Semi Fluid Grease PENRITE</b>	Penrite Semi-Fluid Grease, about 1200W, is an extreme pressure, lithium soap grease, blended using a high viscosity base oil and effective anti-wear, rust and oxidation inhibitors. It can be used in Veteran and Vintage gear boxes, leaky gear boxes and chain cases. Does not splash, resist leakage and squeeze-out. Minimizes wear and shock loads Operates from 0 to 275 degrees. (500ml)	<b>LUB027 \$14.60/btl</b>
<b>30W Motor Oil Non-Detergent</b>	Non-Detergent Motor Oil. Our customers have asked for it and now we have it. Just the oil with no additives. SAE 30. Lubriplate	<b>LUB022 \$3.75/qt</b>
<b>30W Detergent Motor Oil</b>	Detergent Motor Oil. A mixture of the best motor oil with additives to reduce foam, wear and corrosion. It is good for use with yellow metals. SAE 30. Lubriplate	<b>LUB023 \$3.75/qt</b>
<b>Water Pump Grease PENRITE</b>	An NLGI 4 moderate duty grease made from quality base oils and a calcium soap. Good for water pumps on vintage vehicles, fire trucks. Can be packed in grease cups, or injected via gun/syringe. Resists wash out, will not separate in service. (50 ml, Imported from Australia)	<b>LUB028 \$8.00/can</b>
<b>Water Pump Grease LUBRIPLATE</b>	Correct for all water pump bearings and can packed in screw-type fittings or injected. 14oz can	<b>LUB003 \$8.00/can</b>
<b>Wheel Bearing Grease</b>	This Wheel Bearing Grease is the Right Stuff for your wheels. It comes in a wide mouth plastic tub for easy digging, it is sticky enough to stay inside the bearings when packed. Lubriplate	<b>LUB024 \$7.00/tube</b>
<b>Engine Assembly Grease</b>	The right grease for assembling gear casings, engines, transmissions and anything else that needs proper start-up lubrication. This grease actually dissolves in other greases, allowing the correct running lubricant to do its job after start up. Sold in 10oz squeeze tubes for easy application.	<b>LUB025 \$6.00/tube</b>
<b>Chain and Cable Spray Lubricant</b>	Just the right mixture of penetrating oil to clean gunky chains and cable and lubricants to prevent wear and binding. The lubricant is applied and begins in a foamy state to adhere to the surface, then the foam dissipates as the lubricant seeps into bearing surfaces. 16oz aerosol. Lubriplate	<b>LUB021 \$8.00/can</b>
<b>P B Blaster</b>	We are often asked to recommend a good penetrating solvent. PB Blaster, a concentrated co-polymer penetrate, is our #1 choice. Use it once, and you'll never use WD40 again! 12 oz aerosol can	<b>LUB001 \$8.00/can</b>

Gear Oils & Lubricants

# Restoration Supply Company

is proud to offer you  
**Lubriplate Lubricants**

Fiske Brothers Refining Co. manufacture Lubriplate lubricants and they are America's oldest lubricant company, manufacturing the highest quality industrial lubricants for 133 years. Today, this ISO 9001 company leads the industry in providing cutting-edge lubrication solutions.

## SPO Gear Oil

**LUBRIPLATE SPO** Lubricants are specially designed for a wide variety of industrial applications such as gear cases, machine ways, chains and general purpose lubrication. These oils will provide a long-lasting wear resistant film that reduces friction and heat. The polar affinity of SPO protects metal surfaces from rust and corrosion as well as chemical corrosion. These oils have excellent remissibility, oxidation resistance and thermal stability, thus extending lubricant life. These SPO oils can be mixed with each other for viscosity tuning. Actual field operations have proven that **LUBRIPLATE SPO** Lubricants provide a tacky, superior lubricating film for high-sliding action in worm, bevel, helical and spur gears as well as machine ways, chains etc. This series of products will reduce friction and heat, thus improving efficiency. The anti-wear properties are compatible with brass, bronze and silver-alloy metals. They are excellent for areas of high moisture, heat and load found in many industries ranging from quarries and mills to food processing. 1 quart bottles.

<i>Oil Weight</i>	<i>Lubriplate Number</i>	<i>RSC Part Number</i>	<i>Price</i>
90W	SPO-255	<b>LUB014</b>	\$12.50
110W	SPO-266	<b>LUB015</b>	\$12.50
140W	SPO-277	<b>LUB010</b>	\$12.50
250W	SPO-288	<b>LUB012</b>	\$12.50
600W	SPO-299	<b>LUB008</b>	\$12.50

## Non-Detergent Motor Oil

**LUBRIPLATE Non-Detergent Motor Oils** are high V. I., high flash and fire, extra clean motor oils recommended wherever operating conditions require an oil of this type. Quart Bottles.

<i>Oil Weight</i>	<i>Lubriplate Number</i>	<i>RSC Part Number</i>	<i>Price</i>
SAE 10w	L0804	<b>LUB135</b>	\$3.75
20-20w	L0806	<b>LUB136</b>	\$3.75
SAE 30	L0807	<b>LUB022</b>	\$3.75
SAE 40	L0808	<b>LUB137</b>	\$3.75
SAE 50	L0809	<b>LUB138</b>	\$3.75

## Super HDS Motor Oil

**LUBRIPLATE SUPER HDS MOTOR OILS** are formulated with a proven chemistry of additives designed for the severe service capability needed to meet the exacting new automotive and military requirements for internal combustion engines. Contains ZDDP. 1 quart bottles.

<i>Oil Weight</i>	<i>Lubriplate Number</i>	<i>RSC Part Number</i>	<i>Price</i>
10w	L0788	<b>LUB139</b>	\$4.50
20-20w	L0789	<b>LUB140</b>	\$4.50
SAE 30	L0791	<b>LUB023</b>	\$4.50
SAE 40	L0792	<b>LUB137</b>	\$4.50
SAE 50	L0793	<b>LUB142</b>	\$4.50

## Super GPO Motor Oil

**LUBRIPLATE SUPER GPO OILS** are formulated with a chemistry that has a proven record for excellent performance in both naturally aspirated and turbocharged diesel engines. LUBRIPLATE SUPER GPO OILS multi-vis oils are extremely shear stable over long operating periods. Contains ZDDP. 1 quart bottles.

<i>Oil Weight</i>	<i>Lubriplate Number</i>	<i>RSC Part Number</i>	<i>Price</i>
SAE 30w	L0749	<b>LUB143</b>	\$4.50
SAE 15w-40	L0753	<b>LUB144</b>	\$4.50
10w-30	L0754	<b>LUB145</b>	\$4.50

## Specialty Greases and Lubricants

<b>Semi Fluid Grease 1000w</b>	<b>MAG-00</b>	A shear stable, multi-functional, non-corrosive extreme pressure, water resistant, semi-fluid polymer type lubricant for both plain and anti-friction bearings, gears, cams and slides. Works well with older transmissions and rear ends with sever leakage problems. White. 1 quart bottle.	<b>LUB002</b>	\$15
<b>Semi Fluid Grease 1500w</b>	<b>1500</b>	A lithium complex grease that can be used for a variety of industrial, automotive and heavy-duty construction applications. This rugged, extreme pressure lubricants can withstand higher operating temperatures than traditional lithium multi-purpose greases as well as most lithium complex greases. Can be used for a variety of industrial and automotive applications. It is ideally suited for use in leaky gear cases that require a semi-fluid grease. White. 1 quart bottle, re-bottled from drum.	<b>LUB120</b>	\$12.50
<b>Water Pump Grease</b>	<b>115</b>	Calcium grease, NLGI # 4. Ideal water pump lubricant. 14 oz can.	<b>LUB003</b>	\$8
<b>Aero Grease</b>	<b>AERO</b>	A neutral lithium base lubricant, manufactured with a light viscosity mineral oil that remains plastic down to -70°F, has an ASTM Dropping Point of over 350°F and is an NLGI No. 1 consistency. Lubriplate Aero is the recommended grease for your garage door openers. 14 oz can.	<b>LUB122</b>	\$9
<b>Wheel Bearing Grease</b>	<b>L0220</b>	A non-corrosive, extreme pressure, water resistant, shear stable lubricant designed for all type of wheel bearings. Ok for disk brake wheel use. 16 oz tub	<b>LUB024</b>	\$7
<b>Engine Assembly Lube</b>	<b>105</b>	A white, waterproof, NLGI No. 0, grease type lubricant possessing exceptional anti-seize properties and recommended extensively for coating all moving parts for motor assembly and rebuilding. It will dissipate into the oil with no deleterious results. 10 oz squeeze tube.	<b>LUB025</b>	\$6
<b>Chain &amp; Cable Fluid</b>	<b>L0135</b>	A lubricating, penetrating and cleansing fluid designed for a multitude of applications. Will not produce a dry surface; it will maintain a moist film that will not pick up dust and dirt, but rather acts as a cleansing agent. 12 oz aerosol	<b>LUB021</b>	\$8
